

FM Transmitters

150W – 2000W ETG Indium

The products in this series combine ultra high efficiency, high reliability and low energy consumption in a sleek, 2RU high, compact rack mountable unit.

4 DIFFERENT MODELS

Save your energy and space

The transmitters in this product line are available in 4 different power levels

ETG 150 | ETG 500 | ETG 1000 | ETG 2000

TECHNOLOGY

- Indium
- Life Extender
- Icefet
- Ecosaving
- Brain Mode
- High Temperature Resistant
- Ultra Compact Size
- Adaptive Control
- Planar Technology
- Fast Boot-Up Time
- Scalability
- Connect Everywhere

FM Transmitters

ETG / ET Indium - HIGHLIGHTS

SMART DESIGN

Ultra compact size, light weight, clean layout, ease of maintenance and repair.

LOW ENERGY CONSUMPTION

Highly reduced energy consumption and significantly lowered operating costs due to state of the art nature of the design.

RELIABILITY

Extremely high reliability and the ability to ensure continuity of service even under extreme operating conditions thanks to intelligent safety protocols, Icefet technology, and Lifextender algorithms.

TOTAL CONTROL

Accurate and detailed real time data on the operating status of the transmitters, available at the analytical level. Local and remote management and control via Serial Protocol, SMS, GPRS, SNMP, WEB.

SCALABILITY

All products are designed to be scalable with the greatest advantage that any technological improvement affecting the base product is directly transferred to all equipment in the product family via upgrades.

DDS EXCITER

Digital Transmitter.

ELENOS
World Broadcast Experience

SINCE 1977, MORE THAN 40.000 FM TRANSMITTERS INSTALLED IN MORE THAN 100 COUNTRIES

Elenos
It is a world leader in manufacturing innovative, state-of-the-art FM transmitters. A global company with offices and support facilities in Europe, North America and Asia, our transmitters are widely acclaimed for clean, transparent audio, compact design, state of the art features, low energy consumption, and reliability.

Our Mission is to create and deliver the most reliable transmitters in the world.

Broadcast Electronics
Its legendary FM and AM Transmitters and the industry leading Radio Automation Playout System – AudioVAULT – have been provided to thousands of customers covering every continent.

Itelco
Founded in 1962 in Orvieto, Italy, its TV transmitters now can boast about top-of the line energy efficiency at all power levels, all standards, liquid and water-cooled.

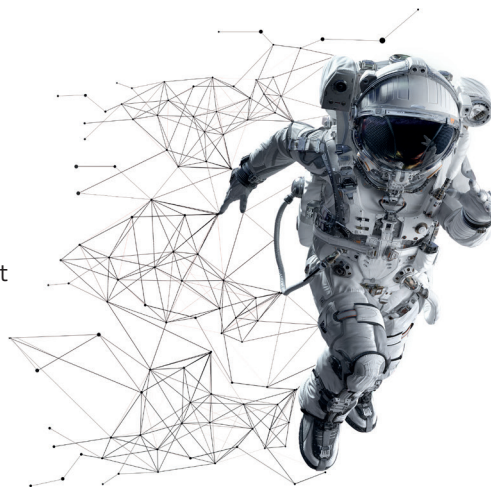

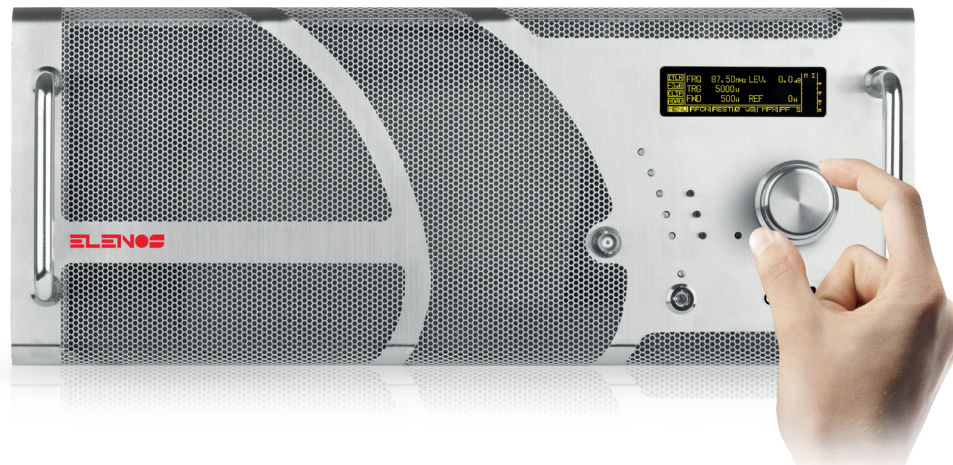

Protelevision
Is a leading designer and manufacturer of advanced future-proof modulation solutions for Digital TV and Radio standards.

FM Transmitters 3500W – 5000W ETG Indium

The most advanced technology regarding electrical efficiency, compact and lightweight design, ease of use, diagnostics and completeness of operating data, protection strategy and operation under extreme conditions.

2 DIFFERENT MODELS
ETG 3500 | ETG 5000

FM Transmitters 10000W – 60000W ET Indium

30 kW OF POWER HOUSED IN A SINGLE 19" RACK

The technology in the Elenos High Power Transmitters Line offers the most complete access to transmitters operating data, protection operation, and the ability to operate under severe environmental conditions while maintaining undiminished RF and audio specifications.

6 DIFFERENT MODELS
Save your energy and space.

The transmitters in this product line are available in 6 different power levels

ET 10000 | ET 15000 | ET 20000
ET 25000 | ET 30000 | ET 60000
